YOUNGER CHILDREN

EDUCATORS

FAMILIES

OLDER COMMUNITY MEMBERS

We are able to provide younger children, educators, families and older community members with learning choices, and with user-friendly downloads that assists them to make positive, well-informed choices.

5.13 billion people in the world own mobile devices - 66.5% of the world's population. 2.71 billion or 35.13% of the world's population own smartphones. We can also address the provision of services to those without access to the electronic media through organisations such as 'Save the Children.'

There are more than 3,000,000 known home learners throughout the world - reliable independent research supports this fact. 1% of the home learning market would equate to 30,000 customers. The placement of 20 titles of approximately 32 pages - with a recommended retail price of \$US10 - in 1% of the target market would generate an income in excess of \$US6,000,000. The placement of 20 titles -of approximately 64 pages - with a recommended retail price of \$US15 - in 1% of the target market would generate an income in excess of \$US9,000,000. If these placements occurred over a 3-year period approximately \$US15,000,000 would be generated - with a further 160 titles already available.

### **BRAIN BOOSTERS**

every day on Facebook

### **ACTIVITY COLLECTIONS : 60 TITLES**

These 32 page, A4, colour-coded, collections are not placed in usual curriculum groupings, but address traditional curriculum areas as well as newer types of study.

### **BRAIN WAVES NEUROSCIENCE SERIES : 12 TITLES**

- The connections between our bodies and our brains
- Our brains are hot-wired to seek new knowledge and enjoyment : daily exercise keeps our brains fit
- There are more than 3 million children and families seeking the best ways to learn : so we invite and promote their personal success stories.

### **CARE N' SHARE : 20 TITLES**

- Two thousand unique learning opportunities, experiences and investigations.
- For every one of the titles you purchase you are able to choose where in the world a free copy for a deserving student will be sent.

### **SELF STUDY NOTES AND ACTIVITIES**

- We could introduce a 'print on demand' service, but the cost of a paper-based title would be much higher, with postage and packaging added

### **PLEASE NOTE**

- Although we have a varied collection of proven resources there is no need to launch our website with a great many of them available for purchase - because most people would not have the financial resources to make large purchases.
- We believe approximately 100 titles would provide choice and credibility.
- Past experiences have found that most home educators and teachers are willing to spend \$20 per pay (per fortnight) to purchase their own resources.
